

AccessCode

AccessCode

AccessCode is a new system of lockers. The system has a clean and contemporary aesthetics and several locking mechanisms that bring technology and operating efficiency to the equation. The system features also alternative locking mechanisms (code mechanisms, numbered key systems or even RFID tags). The use of AccessCode is almost unlimited when it comes to the type of building and customers that could profit from the system. Spaces such as private owned companies, educational facilities, libraries and many others where to store is a requirement. Easiness and secureness are extras that AccessCode offer.
