

# Cloonch

# Cloonch

The Cloonch perch brings movement into everyday working life. It allows dynamic sitting and standing, which is good for your back and posture. Cloonch is particularly suitable as a stool, for use at standing tables and as additional seating at height-adjustable desks. Cloonch is comfortably upholstered, light and stable. The elegant leather loop handle tab is used for transport and activates the gas lift height adjustment. An ergonomic, tiltable pendulum mechanism is concealed in the base for safe and comfortable support.

# Mobile

## Beweeglijk

The name **Cloonch** is a reference to Viasit's homeland. In the Rhine Franconian dialect of Neunkirchen, "klunschen" means something like "to tilt" or "to rock".
