## MANUFACTURED LOCALLY IN THE UK & IRELAND

Our Koala Acoustic products are manufactured locally, ensuring high-quality craftsmanship while supporting local industry. By producing in house, we maintain strict control over every stage of the manufacturing process, from sourcing sustainable materials to ensuring precision in production.

## MADE FROM RECYCLED BOTTLES

Koala Acoustic products are made from PET material derived from recycled plastic bottles, showcasing our commitment to sustainability and eco-conscious design. By transforming plastic bottles into high-performance acoustic panels, we actively contribute to reducing plastic waste and support circular economy practices.

## 10 YEAR GUARANTEE

Our Koala Acoustic products come with an impressive 10-year guarantee giving you confidence that you're investing in a solution built to last. We take pride in the quality, durability, and performance of our acoustic panels, which are designed to meet the highest standards of sustainability and functionality.

## QUICK TURNAROUND

Our Koala Acoustic products are designed for efficiency—not only in performance but also in delivery. Manufactured locally in the UK, we offer a quick turnaround on all orders, ensuring our acoustic solutions reach your door within 1 to 2 weeks, minimising project delays.

## FIRE RESISTANT

Our fire-rated material provides an added layer of safety and peace of mind in any environment. Choosing our Koala Acoustic material means investing in more than just a product—you're choosing quality, sustainability, and innovation.

## ANTIFUNGAL

Our Koala Acoustic material not only champions eco-friendliness by utilising recycled PET materials, but it also goes a step further in promoting health and safety. Its antifungal properties help prevent the growth of mould and bacteria, ensuring a cleaner, healthier, and safer environment.

## SOUND ABSORBING

Our 12mm and 24mm panels feature impressive sound absorption coefficients, making them ideal for environments where noise reduction is paramount. Whether it's a bustling office or a lively restaurant, our Koala Acoustic material helps create a more serene and comfortable atmosphere.
