

SAMMY

OFFICE CHAIR

desksinternational™

The 'Sammy' office chair comes complete with a mesh back in a choice of colours and, a seat pad available in a choice of premium fabrics. We manufacture our office/task chairs using the highest Italian quality componentry, dense long-lasting seating foam, and premium quality fire safe fabrics. Our team is lucky enough to work with premium suppliers, resulting in office chairs that are ergonomically conscious but also stylish.

The 'Sammy' office chair features:

- Height Adjustable gas lift – Adjust to your height for comfort.
- Synchro Mech Tilt – Lean forward and back into the chair while all the Sammy's back keeps in contact with yours.
- Height adjustable arms – adjust to your comfort, an advantage for taller/shorter statures'.
- Adjustable lumbar support – raise and lower the lumbar support strip, especially important for the lower back.

WHY BUY SAMMY TASK CHAIR?

- The Sammy chair may be just the right chair for you – high comfort level and attractive design, this chair will help you achieve ergonomically correct seating posture.
- Sammy comes with all features a good office chair should have:
- Height adjustable – adjust the Sammy to your height of comfort.
- 360 swivel allows you to turn around in your chair making it easier to access various parts of your workstation.
- Synchronised mechanism with tilt options – lean forward and back into the chair, while the Sammy's back keeps in contact with yours.
- Height-adjustable arms will adjust to your comfort – an advantage for taller or shorter structures.
- Adjustable lumbar support – being able to raise and lower the lumbar support strip to suit your position is especially important for the lower back.
- Assembled mesh back is notably comfortable.
